ESAT is providing replacement pages with hand corrected SDG#. I will bring the file up to you when I receive the corrected pages of all the docs involved are received so they can be scanned in place of the original file for this one.

Thanks..

Sincerely,

Judy,

How is it being corrected? Are you just issuing a whole new report with no indication that there was an error in the original or is the error referenced in the corrected report? Thanks!

Subject: Good Morning!

We found the Dimock TDF that has the SDG # inverted (TO: 0042 TDF#02096). This TDF file has already been copied into the L: drive. The correction is being done as a email to go into the TDF file. Is this something that would need to be resubmitted for scanning the correction? Please advise.

Thanks for your assistance. Have a nice day!

Sincerely,

Judy Battee
